

**Dear Friend of Land Conservation,**

**We are Wild About Texas!** Big starry skies, beautiful vistas from the Piney Woods to the Hill Country and beyond, unique wildlife, and boundless places to explore. There is so much about our state worthy of love and protection. Getting outside to explore is a favorite pastime for many a Texan, including us. We relish spending time in the special places here in Houston, like the Spring Creek Greenway. Our friends at Bayou Land Conservancy are on the forefront of protecting the iconic landscapes found in the Houston region: our streams, forests, and wetlands.

Please join us as supporters of the Bayou Land Conservancy Land Lover Gala. Help us celebrate all the things we love about outdoor Texas. You won't even need to saddle up, because this year's event will be at home on your range. You can put your feet up, get comfortable, and help us raise funds to protect more of the special outdoor places in our community.

**We look forward to seeing you on Friday, November 13th,  
at 6 pm!**

# Keynote Speaker

## Ben Masters

Ben Masters is a filmmaker, writer, and photographer currently living in Austin, TX. Masters studied wildlife biology at Texas A&M University and is most known for producing "Unbranded" and directing the Emmy-nominated film "The River and The Wall." He has written for National Geographic, Western Horseman, and has published two books through Texas A&M University. Most of his films are character-driven movies about wildlife and wildlife habitat with the goal of inspiring conservation efforts in Texas and the American West. Previews of Ben's films can be found at [BenMasters.com](http://BenMasters.com).

*Your support allows Bayou Land Conservancy to protect more than 14,000 acres at 63 preserves in the Houston region and to seek out additional land to permanently protect. Because of you, our Spring Creek Nature Trail welcomes thousands of visitors each year, and we continue to provide environmental education for adults and youth in our community. Thank you!*

**We preserve land along streams for flood control, clean water, and wildlife.**
